New Corsa

C'MON HAVE SOME FUN

Get yourself into the all-new Corsa. And get a lot more fun out of life. With stunning new styling and brilliant attention to detail, inside and out. A dynamic new chassis with punchy petrol or diesel engines. And more clever features than ever. It can only make life better. Wherever you go. Whatever's in store for you.

06	Real style	24	Make a choice
10	Smart innovation	26	Expression, Life and Club
14	Fun to drive	28	Design and SXi
18	Safe and secure	30	Vauxhall by Design
20	Great features	34	Colours and trims

This brochure covers only those models listed in the contents. Some of those shown include options and accessories available at extra cost. And not all of the features described are available on every model. So please check the enclosed Specification insert for further details. From time to time, we also offer alternative Corsa models such as Special Editions, featured in their own separate literature or found on the Vauxhall website: www.vauxhall.co.uk

C'MON CHECK THE STYLE

New Corsa looks brilliant from every angle. The seriously sporty three-door, sharp and dynamic with real attitude. And the flexible five-door – maybe a little more grown-up, but ever so versatile and wonderfully well proportioned. On the inside, we've got sharp tailored fabrics, clean lines, new surface finishes and chrome detailing. And every model has its own, unique personality, so all you have to do is choose the one that matches yours.

C'MON TRY SOMETHING NEW

Life never stands still. Nor does New Corsa. And the latest models are available with some pretty smart features. Like the multi-use Flex-Fix® integrated carrier system that extends when you need it, and disappears when you don't. Or voice activated Bluetooth® for your mobile phone, adaptive headlights that see round corners, and the ability to play MP3 tracks on CD. You might not use them all the time, but you'll certainly appreciate them when you do.

C'MON ENJOY THE DRIVE

The best way to discover how much fun New Corsa is to drive is to try it for yourself. You certainly won't be disappointed. We've tuned the new chassis for a great ride and secure, agile roadholding. We've made even more chassis safety features available to help in emergency situations. And every Corsa engine – petrol or diesel – matches lively performance with remarkable fuel economy. Book that test drive today!

ENGINES AND DRIVING

We've spent a lot of time coming up with clever ways to make New Corsa a brilliant drive. And look after your safety at the same time. So once you get yourself behind the wheel, be sure to make the most of it.

◀ EASYTRONIC

Choose New Corsa's optional Easytronic transmission and you'll get a five-speed manual gearbox with a fully automatic mode. In manual mode, you simply push the lever forward or back to shift gears up or down and by nudging the lever to the side you switch to fully automatic mode. There's no clutch pedal so you can drive it on an automatic-only driving licence.

▶ SIX-SPEED AND AUTO

Cars like Corsa never used to come with a six-speed manual gearbox, but the new 1.3CDTi 16v 90PS and the 1.7CDTi 16v* diesel models do. Others come with a five-speed manual as standard, with a sophisticated four-speed automatic* and five-speed Easytronic (left) also available on certain models.

▶ SPEED-SENSITIVE STEERING

New Corsa has speed-sensitive power steering, so it's easier to turn the wheel at parking speeds when you need it most, but more stable, with more feedback, once you're out on the road. The setup is even tuned to the specific engine to ensure the perfect level of assistance, with a progressive rate variable ratio system on SXi for an even sportier response.

▼ PETROL ENGINES

New Corsa models are available with three multi-valve petrol engines. The numbers are different – 1.0i 12v, 1.2i 16v and 1.4i 16v – but they all feature our Twinport variable induction system. So their attitude is very much the same. Big on flexibility with lively power delivery when you need it. Big on fuel economy. But low on emissions.

▼ TURBO DIESELS

New Corsa's three turbo diesels – 1.3CDTi 16v 75PS and 90PS, plus the incredible new six-speed 1.7CDTi 16v* – are environmentally friendly and smooth running with serious mid-range punch and incredible fuel economy. How do we do it? Common rail injection, variable geometry turbocharger with intercooler and plenty of Vauxhall know-how.

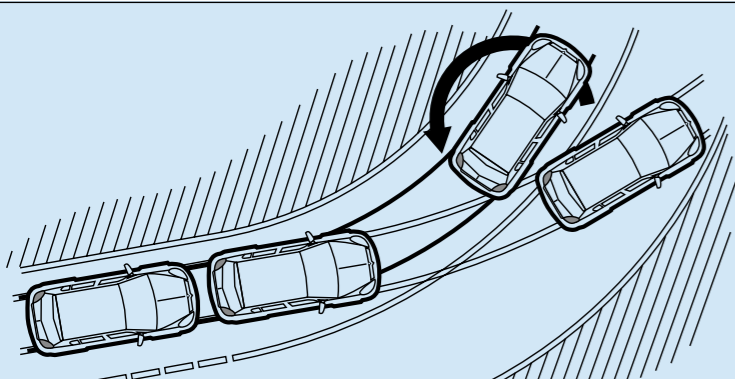

▶ CHASSIS

The New Corsa chassis combines serious ride comfort with real agility. The advanced anti-lock braking system has a number of important new features and combines with other chassis safety features to improve stability and steering behaviour in a range of emergency situations.

Choose the sporty SXi – or choose optional 17-inch alloy wheels on Design models – and you will enjoy a lower ride height and sportier spring and damper settings, plus progressive rate variable ratio speed-sensitive power steering.

*Available late 2006.

ABS AND ESP-PLUS

New Corsa's state-of-the-art Anti-lock Braking System (ABS) includes electronic chassis safety features like Straight Line Stability control and Cornering Brake Control as standard. Electronic Stability Programme-plus with Enhanced Understeering Control can be specified as an option. You can find out more in the Specification insert.

Adult occupant rating

INTELLIGENT SAFETY

Our life-saving safety features are almost taken for granted on Vauxhall cars nowadays, but it doesn't mean we've stopped inventing new ones. Double front seatbelt pretensioners and adaptive brake lights are just two examples of how New Corsa achieves such a high safety rating.

ADAPTIVE BRAKE LIGHTS

We all know that ABS brakes can shorten your stopping distance in slippery road conditions, but what about the driver behind you? With New Corsa, if the ABS is activated at over 18mph, your brake lights blink at five times a second, warning the following driver that you're emergency braking.

HALOGEN AFL

Optional Halogen Adaptive Forward Lighting is yet another New Corsa safety feature that you just don't expect to see in this kind of car. Adaptive headlight beams move up to 15 degrees left or right of the straight ahead position when you turn the steering wheel, helping improve your vision of the approaching bend.

DOUBLE PRETENSIONERS

New Corsa's front seatbelt pretensioners act on the diagonal shoulder restraint on all models. And on the lap belt too, on Club models and above. So they're always in the optimum position to interact with the front airbags and compensate for lateral seat movement in the event of a collision.

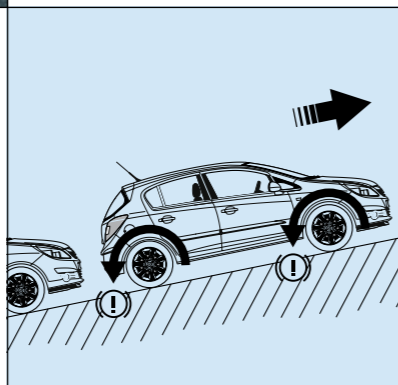

AIRBAGS

Most New Corsa models feature double-action front seatbelt pretensioners and the latest airbags – up to six of them – which means enlarged front seat side-impact and full-size curtain airbags too. Press a button located on the centre console and you can also deactivate the front passenger's airbag to keep a rear-facing child seat up front.

HILL START ASSIST (HSA)

If you've ever driven an automatic transmission, you'll like this feature. Available on Easytronic models only, it stops you rolling back on a slope when you take your foot off the brake, by simply maintaining the brake pressure electronically for 1.5 seconds after the pedal has been released or until the accelerator is applied.

SECURITY

You don't want anyone else driving away in your New Corsa, so every model comes with an engine deadlock immobiliser and central deadlocking, by remote control on most models. We've also incorporated an internal door locking switch, for added security and reassurance in the event of unwanted attention while you're inside the car.

EASY LIFE

New Corsa is available with some pretty brilliant features so you never have to compromise on what you really want. Like real quality audio and navigation. Your favourite seating position. And a little more personal safety. So it's easy to make your New Corsa exactly the way you want it.

DRIVING POSITION

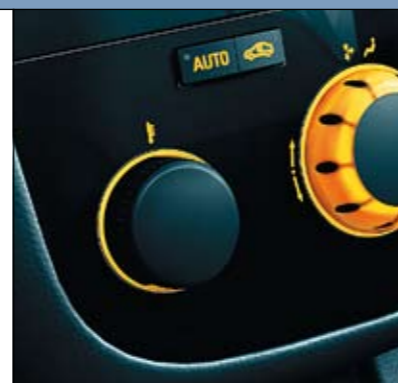

You're going to be spending some quality time in your New Corsa. So we've made it easy for you to make sure it's exactly how you want it. The New Corsa interior is big on ergonomic efficiency. Which means it's designed around real people, with space to relax and plenty of room for long legs and broad shoulders – front and rear. All the controls are within easy reach so you don't have to take your eyes off the road for more than a moment to adjust the heating or the audio, for example.

Best of all, it's easy to find the perfect seating position with a driver's seat that moves six ways – including height adjustment on most models. On Club models and above (optional on Life), you'll find fully adjustable steering too, bringing us right back to what we said earlier about real people and perfect ergonomics.

INFOTAINMENT

The new CD 60 stereo radio/CD/MP3 player/satellite navigation system is only part of the leading edge New Corsa infotainment programme. Steering wheel mounted audio controls are standard on many models. And Bluetooth® wireless mobile phone technology is also available featuring voice activation and full operation via the steering wheel controls and fascia display.

AIR-CON AND ECC

Air-conditioning provides chilled air on hot days, faster demisting on damp days and a more pleasant atmosphere throughout the year. Move up to Electronic Climate Control (ECC) for a more consistent interior temperature, whatever it's like outside, with automatic air recirculation if it senses high levels of pollution outside the car.

RAIN AND LIGHT SENSORS

With automatic lighting control, standard on Design and optional* at extra cost on Club and SXi, you can set the car's headlights to switch on automatically when it gets dark or you enter a tunnel. Further sensors switch the wipers on automatically when it rains, and even dim the rear view mirror if you're dazzled by the car behind.

CRUISE CONTROL

Need a reminder of what a great feature cruise control is? New Corsa's easy-to-use, tap up/tap down cruise control, available as part of the Plus pack on Club, Design and SXi, allows you to maintain a steady speed without keeping your foot on the throttle. So it's more comfortable on long journeys and easier to keep to speed limits too.

FOLLOW ME LIGHT

Every New Corsa features door-to-door illumination. You just flick the headlight stalk and the dipped headlights and rear lights stay on for 30 seconds – helping you find your way out of an unlit driveway or car park. Some models feature welcome lighting too, switching on the interior lights and rear number plate lights when the car is unlocked.

*In conjunction with rain-sensitive wipers.

◀ TRANSLUCENT CONTROLS

Smart new backlit, translucent controls are standard on the audio equipment and, on some models, heating and air-conditioning system and window switches. On Design and SXi, the front and rear footwells are gently lit too, for a subtle, welcoming effect.

◀ CLEVER STORAGE

New Corsa has so many places to keep your belongings. There are drinks holders and stowage compartments in the centre console, an underseat storage tray on the front passenger's seat and the front door pockets (and rear side panels on 3-door models) have holders for bottles up to 1.5 litres.

CLEVER EQUIPMENT

How do you build a small car that feels like a big one? You give it plenty of space for you and your friends. You make room available for all your kit with clever storage solutions. And make plenty of smart features available, so your New Corsa is exactly the way you want it.

◀ ▶ LUGGAGE AREA

Some New Corsa models feature a DualFloor luggage compartment. When the rear seat backs are folded, it provides a long, level, load surface which makes loading that bit easier. And when lowered, it offers a deeper load area. Other luggage area features include luggage restraining hooks and a stowaway parcel shelf.

▶ SUNROOF

New Corsa's electrically operated sunroof is 25% wider than it used to be, so you can look forward to 25% more blue sky. It has a manually operated roller blind, to reduce glare, and twin-chamber insulation to reduce noise when it's shut. And an integrated wind deflector reduces wind noise, too.

◀ FLEX-FIX®

If your plans change all the time, so can your New Corsa. Order up the revolutionary Flex-Fix® integrated carrier system and, in conjunction with the individual accessory attachments available, the ability to carry two bikes or skis without a separate roof or rear carrier are all possible. Most of the time Flex-Fix® stays hidden behind the rear number plate, but when the need arises, you simply extend it, attach the extra rear lights and fit your kit. And an acoustic warning sounds when the carrier is extended and reverse gear is engaged.

C'MON MAKE A CHOICE

So here's the question. Do you get what you want? Or make do with what you get? We suspect the former. So it's just as well that New Corsa comes with a brilliant choice of feature-packed models, petrol and diesel engines, and drop-dead gorgeous colour and trim choices.

CLUB

Go on. Treat yourself. Choose New Corsa Club for specially co-ordinated interior colour combinations, added versatility and plenty of brilliant features.

Standard features include:

- Anti-lock Braking System (ABS)
- Driver's and front passenger's dual-stage airbags
- Remote control central locking
- Electrically operated front windows

Additional features over and above Life model include:

- Front seat side-impact and full-size curtain airbags
- Stereo radio/CD with MP3 capability
- Steering wheel mounted audio controls
- Steering column adjustable for reach and rake
- Driver's seat height adjuster
- 60/40 split-folding rear seat back
- DualFloor luggage compartment
- Body-colour door handles and side-protection mouldings

SXi

Dynamic handling and responsive performance is certainly one reason to choose SXi. But so is the ability to stand out and get away in style.

Standard features include:

- Anti-lock Braking System (ABS)
- Front seat side-impact and full-size curtain airbags
- Steering column adjustable for reach and rake

Additional features over and above Club model include:

- 16-inch alloy wheels
- Sports suspension
- Front fog lights and dark-style headlights
- Sports-style front seats
- Translucent heating, lighting and window controls
- Leather-covered sports steering wheel
- Electrically heated door mirrors
- Chrome-effect exhaust tailpipe
- Progressive rate variable ratio speed-sensitive power steering

*Available late 2006.
CDC 40 stereo radio/CD player with six-disc autochanger (availability date TBC), air-conditioning, 17-inch twin-spoke alloy wheels and two-coat metallic paint are optional at extra cost.

VAUXHALL BY DESIGN

Vauxhall by Design is all about choice – selecting your new car, then personalising it to suit yourself with a choice of individual options, special option packs and accessories available at highly attractive prices. You'll find further information on the following pages. Ask your Vauxhall retailer for more details.

OPTIONS AND OPTION PACKS

New Corsa options are available individually or in special option packs at great prices. The Specification insert has more details. Individual options include:

- Alloy wheels
- Air-conditioning
- Halogen Adaptive Forward Lighting (AFL)
- Sunroof
- Flex-Fix® integrated carrier system
- Rain-sensitive windscreen wipers
- Electronic Stability Programme-plus (ESP-plus)
- Bluetooth® mobile phone system capability

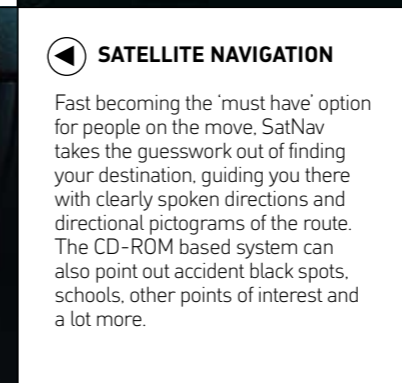

REAR PARKING SENSOR

This system helps safeguard your car and pedestrians. When reverse gear is selected sensors provide an audible warning when an object is detected within a set range behind the vehicle.

ALLOY WHEELS

Nothing sets your car apart like a stunning set of alloys, so check out the 15-inch alloy wheel option for Club models and the larger 17-inch size for Design and SXi.

SATELLITE NAVIGATION

Fast becoming the 'must have' option for people on the move, SatNav takes the guesswork out of finding your destination, guiding you there with clearly spoken directions and directional pictograms of the route. The CD-ROM based system can also point out accident black spots, schools, other points of interest and a lot more.

BLUETOOTH®

With New Corsa's optional mobile phone adaptor, your phone automatically interfaces with the infotainment unit, for full operation via the steering wheel controls and fascia display. Bluetooth® wireless technology with voice activation is included. You don't need an extra SIM card or card adaptor. And the system is fully compatible with a huge range of mobile phones*.

HILL START ASSIST PACK**

- Hill Start Assist (HSA)
- Electronic Stability Programme-plus (ESP-plus)
- Deflation Detection System (DDS)

*Please check phone compatibility with your retailer.
**Only available with Easytronic transmission.

VAUXHALL ACCESSORIES

Vauxhall accessories are the right choice for your New Corsa. Whatever you're into, there's certain to be a Vauxhall accessory with your name on it. We've only featured a small selection of what's available here. The Specification insert outlines the complete range. Or check out our website at www.vauxhall-accessories.com

ISOFIX CHILD SEATS

ISOFIX child seat restraint fittings are standard on both outer rear seats, with front passenger seat fittings optional at extra cost on all models except Expression. Used in conjunction with Vauxhall accessory child safety seats, the rigid ISOFIX anchoring mechanism virtually eliminates the dangers that can result from incorrect child seat installation.

Vauxhall's new Top Tether child seat system features an additional restraining strap designed to stop the top of the ISOFIX child seat moving forward in a frontal collision. By limiting the movement of the child's head, the risk of severe injury is decreased. Always remember that restrictions apply regarding the fitment and positioning of child seats. Please ask your retailer or refer to the Vauxhall Child Seat Product Information Guide.

irmischer

Developed in conjunction with auto design specialists Irmischer International, New Corsa styling accessories perfectly complement the vehicle's lines, as well as being manufactured to the same exacting standards as the car itself.

- Range of alloy wheels
- Exterior styling products
- Interior styling products

For availability details of these features – please refer to the Specification insert.

REAR ROOF SPOILER

LOAD CARRIER SYSTEMS

If it won't go inside, stick it on top! Vauxhall's simple, secure and versatile roof rack system starts with a specially designed two-rail base carrier. Then you just add the specialist attachments you need for your bikes, skis, snowboard, surf board or windsurf.

SECURITY

New Corsa is secure already, as our low insurance groups will show. But we also offer the highly visible, hardened steel steering wheel bar, which makes the vehicle virtually impossible to drive away. And an accessory remote control alarm that even works if the battery is flat or the wires are cut. It upgrades your New Corsa to full Category 1 status.

MATS AND MUDFLAPS

We all know what mudflaps do – protect your car from mud, salt, stones, tar and more. Available in sets of four, New Corsa interior mats do the same for the inside. Choose from economy, rubber, carpet and velour, all with anti-slip underside. And don't forget our headlamp protectors either, for real protection against chips and cracks.

DELTA ALLOY WHEEL

INFOTAINMENT

The highly rated Blaupunkt car audio and satellite navigation systems are now available through Vauxhall Retailers. And what a great choice. How about the Nashville DAB radio/CD/MP3/WMA player? The awesome TravelPilot Rome NAV55E RDS radio/CD/MP3/WMA with satnav and full 3.2" colour TFT display. Or maybe the iPod® interface or speaker upgrade?

ALUMINIUM PEDALS

STILA ALLOY WHEEL

COLOURS AND TRIMS
