## All-Pak Also Offers Pre-Cleaned Containers

### All-Pak Offers:

- A variety of container cleaning services including vacuum and ionizing for carton dust removal
- Ultra-cleaning for particulate sensitive products
- Pre-cleaned glass and plastic containers for general laboratory use or environmental applications

Custom cleaning services are also available.

### You Benefit with All-Pak's Pre-Cleaned Containers:

- Particulate contamination is substantially reduced
- Ensures 1 to 1 bottle to closure ratio
- Combined bottle and closure saves shelf space
- The bottle stays clean until you are ready to open it
- You save valuable time

These are just a few benefits! Ask your All-Pak representative about how our pre-cleaned and custom cleaning procedures for glass and plastic containers can help save you time and money!

Visa, Mastercard, & American Express  
Corporate Purchasing Card Accepted

## ALL-PAK MEMBERSHIPS AND ASSOCIATIONS

- National Association of Container Distributors
- National Association of Wholesalers
- Institute of Packaging Professionals
- Chemical Association of Pittsburgh
- Greater Pittsburgh Chamber of Commerce
- Bridgeville Chamber of Commerce
- Institute of Supply Management
- Pennsylvania Institute of Certified Public Accountants
- Small Manufacturers Council

## ALL-PAK WANTS TO PERFORM FOR YOU

- Over 40 Years of Accumulated Packaging Knowledge
- Objective Selection of Materials and Components
- Evaluation of Manufacturers Capabilities and Reliability
- Extensive Component Selection
- Private Design Options
- Product/Package Compatibility Testing
- Speed in Selection/Sampling
- Informed Guidance for Labeling
- Purchasing Power
- Freight Savings
- Internal Project Management Systems
- Time Saving Efficiency

# Why package in glass?

- With glass, you see what you get.
- Glass is inert and is compatible with virtually all products.
- Glass is impervious to permeation of gases and helps contain your product.
- Glass is hard.
- Glass is resealable.
- Glass is recyclable.
- Glass can be made in a variety of colors.
- Amber glass provides UV light protection.
- Glass does not rust.
- Glass can be molded into many unique shapes.
- Glass conveys an image of quality.
- Glass can be labeled or permanently decorated.

## PLASTIC COATED SAFETY CONTAINERS\* – CLEAR AND AMBER

### YOU BENEFIT WITH ALL-PAK'S SAFETY COATED CONTAINERS:

- Helps to comply with OSHA and D.O.T. requirements
- Dramatically reduces breakage and protects personnel from exposure to dangerous materials
- Minimizes contamination and enhances clean-up by remote manipulators in hot cell operations
- Safely contains acids, solvents, alcohols, surfactants, ethers or esters long enough for proper disposal
- Reduces container failure and hazardous contamination by etiological and radioactive materials
- Reduces breakage of containers in-house and in-transit
- Additional container sizes can be quoted upon request

All-Pak's safety coated glass meets the stringent safety requirements of the food and beverage industry, laboratory testing environments, and those industries needing to contain caustics, precious metals, chemicals, and hazardous materials. Engineered to the highest standards for uniform thickness, durability, and impact resistance, the coating helps meet OSHA and DOT/UN requirements for handling and shipping hazardous materials.

### GLASS SECOND SKIN™ PRESSURE CONTAINER

Item Number	Case Pack	Capacity Oz.	Capacity ml	Neck Finish
GLA-00934	96	4	120	20mm Crimp Finish

### CLEAR GLASS/CLEAR COATING MATERIAL

USES: for use in laboratory testing of aerosol products to determine if different propellants and formulations are working properly and to determine if there is product separation. The clear bottle and clear Second Skin™ permit visual inspection.

Other uses may be for shipping samples that may create internal pressure; dangerous products that give added safety in shipment; or very costly products that would represent considerable loss if the container were broken.

\*Plastic Coated Bottles require special Fasson labels to prevent bleeding of plasticizers onto label. Ask your All-Pak representative for more information and pricing.

# Why package in plastic?

- Plastic is lightweight and shatterproof.
- Plastic can be molded in a variety of unique, intricate shapes.
- Plastic can be made in virtually any color.
- Plastic containers can offer glass-like clarity.
- Plastic can be decorated in a number of ways.
- Many plastics provide excellent gas and moisture barrier properties.
- Plastic can be treated to enhance its performance characteristics.
- Plastic containers are resealable.
- Many plastics are easily recycled.
- Many plastics can be hot filled.
- Consumers prefer plastic packaging.

# closures

## THERMOSET

### Why use thermoset closures?

- Improved chemical compatibility
- Excellent heat resistance
- Tight tolerances
- Excellent thread engagement on a container
- Available in a wide range of colors [urea and melamine only]
- Can be lined with a variety of liners
- Custom molding is available

# closures

WHITE METAL

## Why use metal closures?

- Metal closures are an economical choice
- Decorating/lithography can provide eye-popping graphics and colors
- A wide variety of liner systems are available
- Resistant to fracture and impact
- Can withstand high temperatures

# Why use thermoplastic closures?

- Closures "flex" and are less rigid
- Can be molded in virtually any color
- Can be lined with a variety of lining systems
- Can be supplied with linerless sealing systems built into the cap
- Can be supplied with venting systems
- Custom molding is available in a variety of shapes and functions
- Can offer dispensing, child resistant, or tamper evident features
- Closures can be embossed or printed with a message

DISPENSING, APPLICATOR CAPS AND SPRAYERS

## SPECIAL ORDER ITEMS

Please check for minimum quantity

### WET SHRINK BANDS

Wet bands are easy to apply. As they dry, without the use of heat, they shrink and apply a continuing pressure that holds the closure in place. Closure back off is resisted and the package appearance is enhanced. Decoration and message printing are available on special order.

### HEAT SHRINK BANDS

Heat applied by an air gun or a heat tunnel causes the band to shrink around a closure and the neck of a bottle so as to resist closure back off. Another important benefit may be tamper evidence. Holding two objects together until time of use is another use for shrink banding. These bands can be handsomely decorated for aesthetics, or an appropriate message may be printed. They are easy to use, and economical as well.

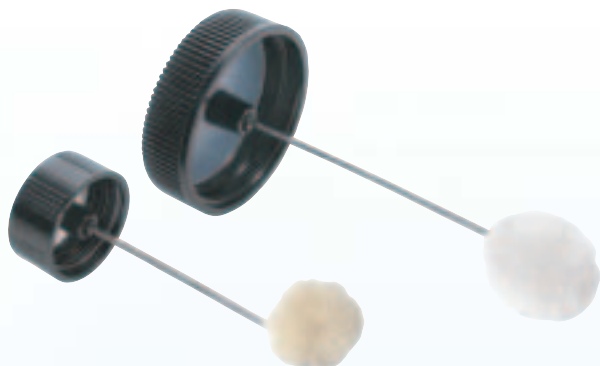

### RIBBED DAUBER

Item Number	Case Pack	Neck Finish
CAP-00144	2500 or each	20-400
CAP-00225	1450 or each	38-400

### BLACK PHENOLIC DROPPER ASSEMBLIES

CAP-05739	Each	20-A	1-oz.
CAP-05741	Each	20-B	2-oz.
CAP-05743	Each	22-C	4-oz.

\*Flint & Amber Only

### ADJUSTABLE NOZZLE TRIGGER SPRAYER — WHITE WITH STRAINER ATTACHED (includes F217 liner)

Item Number	Case Pack	Neck Finish
CAP-00351	500	28mm

### WHITE PP SPRAYER PUMP

Item Number	Case Pack	Neck Finish
CAP-06904	200	28-400

Our Trigger Sprayer with its easy-to-grip contours is a sleek, modern sprayer that offers an alternative to finger pumps. It features a plastic piston dispensing system that produces high delivery, low strokes-to-prime and increased compatibility with a variety of products. The unit has an infinitely adjustable nozzle that can be adjusted by a simple turn to obtain a wide range of spray patterns, from an ultra-fine spray to a condensed stream.

The Trigger Sprayer is also available with an optional anti-backoff/anti-rotational closure system that helps maintain trigger alignment while preventing excessive loss of closure removal torque.

# Why package in metal?

- Metal cans offer an airtight package.
- Metal cans may be sterilized.
- Shelf life is extraordinarily long.
- Metal packaging is tough.
- Metal packaging is inert and protects the contents of the package.
- Metal packaging is very space efficient.
- Metal packaging can be lithographed for eye-popping graphics and colors.
- Metal packaging can be coated on the interior to improve performance.
- Easy open lids and dispensing features are available for many packages.

The undersigned hereby authorizes All-Pak, Inc. and its representatives and agents to inquire and receive information about the undersigned's accounts from any and all of the bank and trade references provided. The undersigned acknowledges that credit terms will be granted only after All-Pak, Inc. has completed a satisfactory credit investigation. The undersigned also acknowledges and accepts the payment terms and conditions of sale listed below:

- Standard terms of sale for credit approved customers are Net 30 Days from Invoice Date.
- Terms are not extended to freight invoices. They are due upon receipt.
- Collection costs and attorney's fees incurred in connection with any delinquent amount are the responsibility of the undersigned.
- A 1.5% monthly service charge will be applied to all past due accounts.
- Any payment not made within terms may result in the denial of future credit and orders may not be accepted or shipped if the account is past due.
- Payment will be accepted in the form of a company check which includes the company name on the face of the check and must be made payable in U.S. funds. U.S. currency, Mastercard, Visa and American Express are also accepted.
- Returned checks will be assessed \$30 for each occurrence.
- Direct Shipment Orders from our manufacturer may be shipped with a plus or minus quantity variance of up to 10%.
- All-Pak does not accept short pays or deductions without prior approval.
- A minimum warehouse order of \$175.00 is required. There is a restocking charge on items returned.
- Returns will only be accepted if a Return Authorization number is given in advance by All-Pak, Inc. and must be clearly noted on all related paperwork.
- All-Pak, Inc. reserves the right to rescind credit or change terms at any time.

## AN ISO 9002 COMPLIANT COMPANY

### **Our Manufacturers Are Capable. We Guarantee it.**

All-Pak thoroughly evaluates its suppliers to assure their capabilities.

- We personally visit and audit their places of business.
- We align with suppliers who support and embrace our core values.
- We measure their dedication to customer service.
- We review their professional reputation.
- We determine their financial strength.

### **All-Pak Employees Are Dedicated to One-On-One Service**

In an ever-changing business climate of downsizing and consolidation, All-Pak continues to grow and expand its business.

We do this by scrupulously selecting our employees, and, as demonstrated by our very low turnover, our employees exhibit a strong commitment to exceeding our customers' expectations.

Of the over 170 employees at All-Pak, two-thirds work in some sales support capacity.

### **Let Us Perform For You and Be Your One-Stop Packaging Consultant**

All-Pak's ordering department skillfully accesses an extraordinary trafficking network in order to maximize our handling, delivery, and turn around efficiency. In most cases, All-Pak promises next-day warehouse shipment of any order submitted before 12:00 noon.

### **Quality. Experience. Innovation.**

With these strengths behind us, you can trust the All-Pak team with your packaging needs. To learn more, talk with your All-Pak representative, or call 1-800-245-2283. We can also be reached by email at [info@all-pak.com](mailto:info@all-pak.com) or by fax at (412) 257-3001.
