Solid Wood Construction

We manufacture the highest quality solid wood furniture in our 150,000 square foot facility in Chase City, VA. Using a variety of hard yellow and radiata pine designed to best suit each product application. The woods we use are leaders in renewable resources with a reforestation program history over the past twenty years. All wood is select, contract furniture grade free of splits, checks and any other defects that might affect structural integrity, and kiln-dried to the proper moisture content. The majority of our pieces employ a two and three ply panel construction providing maximum durability and endurance.

Standard for Occasional Tables

- Penetrating oil-based stain and sealer protects against nicks, fading and water-spotting.
- Three optional pre-catalyzed lacquer finishes available.
- Smooth solid wood tops.

Casegoods Features and Benefits

- Solid wood construction allows the units to withstand the effects of constant use and makes it durable and long-lasting
- Removable and adjustable shelves in our wall units make storage capabilities easy
- Grouping units together provides several different options to meet a variety of storage needs
- Space-saving pocket doors standard on video cabinet
