Great Women Of The Bible - DVD

Have you ever wished you could step back in time, just for a day, and sit at the feet of the Master as He spoke with His disciples? Have you ever wondered how Elizabeth and Zechariah felt when they discovered she was with child, just as the angel Gabriel said she would be – a woman who was “barren” and “well on in years?” Her son was John the Baptist (called “Yochanan the Immerser” by his people), prophesied by Isaiah as “The voice of one crying in the wilderness: ‘Prepare the way of the LORD; make His paths straight (Isaiah 40:3; Matthew 3:3).’” Have you ever wished you could step on board with Paul the Apostle as he sailed throughout the known world spreading the gospel of Jesus Christ? What was the first century church really like, and why were people willing to give all, even unto death, for the sake of Christ? Undoubtedly “the greatest story ever told” has many varied colors and expression. In Laurette Willis' one-woman show Great Women Of The Bible you will meet three remarkable women who tell the story of when “the Word became flesh and dwelt among us (John 1:14).” Subtitled “Witnesses of the Messiah,” the three women you will meet are Elizabeth, Mary Magdalene and Priscilla ... Amazing Grace: The History & Theology Of Calvinism - DVD

UPC/ISBN Number: 026297894337

Studio: Apologetics Group

Just what is "Calvinism"? Does this teaching make man a deterministic robot and God the author of sin? What about free will? If the church accepts Calvinism, won't evangelism be stifled, perhaps even extinguished? How can we balance God's sovereignty and man's responsibility? What are the differences between historic Calvinism and hyper-Calvinism? Why did men like Augustine, Luther, Calvin, Spurgeon, Whitefield, Edwards and a host of renowned Protestant evangelists deny the Arminian definition of free will and label it heresy? Why did the Roman Catholic Church condemn the Reformed teaching of predestination and election and embrace free will theology? And why do so many Protestants, perhaps unwittingly, agree with Rome on this issue? Amazing Grace — The History and Theology of Calvinism is the first video documentary that answers these and other related questions. Hosted by Eric Holmberg (Hell's Bells 1 & 2; The Massacre of Innocence) this fascinating three-part, four-hour presentation is detailed enough so as to not gloss over the controversy. At the same time, it is broken up into ten "Sunday-school-sized" sections to make the rich content manageable and accessible for the average viewer. Part One explores the history of the debate ... Expelled: No Intelligence Allowed

It’s a movie that Ferris Bueller would take the day off to go see. What freedom-loving student wouldn’t be outraged to discover that his high school science teacher is teaching a theory as indisputable fact, and that university professors unmercifully crush any fellow scientists who dare question the prevailing system of belief? This isn’t the latest Hollywood comedy; it’s a disturbing new documentary that will shock anyone who thinks all scientists are free to follow the evidence wherever it may lead. Ben Stein, the lovable, monotone teacher from Ferris Bueller’s Day Off and The Wonder Years is on a journey to answer one of the biggest questions ever asked: Were we designed or are we simply the end result of an ancient mud puddle struck by lightning? Hell's Bells 2: The Power & Spirit Of Popular Music - DVD

UPC/ISBN Number: 026297894238

Studio: *Apologetics Group*

Over seven years in the making, this much-anticipated sequel to the original Hell's Bells series weaves together science, satire, testimonies, parables, interviews, expansive research, and a vibrant Christian perspective to create a video series that is as fascinating as it is educational and evangelistic. Far more than just an expose on the "evils of rock-n-roll", this powerful eight-part series uncovers the "war of the worldviews" - the epic struggle between good and evil, sin and redemption for the souls of men and the destiny of our culture. Great not only for evangelizing the lost and challenging Christians to greater holiness and service, it also serves as an outstanding primer on worldviews.

Among other things, it features a fascinating history of the occult revivals that took place in the late 19th century (and that would later have such a profound impact in the 60s), an analysis of "chaos versus creation", nihilism, what it means to be truly "satanic" and much, much more ... Virtually every major Western leader has over the past several years expressed the view that Islam is a peaceful religion and that those who commit violence in its name are fanatics who misinterpret its tenets. This claim, while widely circulated, rarely attracts serious public examination. Now, the question is finally being asked, "Is Islam itself violent?" Through an examination of the Koran, other Islamic texts, and the example of the prophet Muhammad, this documentary establishes, through a sober and methodical presentation, that violence against non-Muslims is and has always been an integral aspect of Islam. "Jihad," while best translated as "struggle," as represented in the Koran and the life of Muhammad, means nothing less than organized warfare against unbelievers ... After World War I ended, the League of Nations awarded Britain the Mandate for Palestine with the proviso that the Balfour Declaration was implemented along with "close Jewish settlement in the Land." The foolishness of the common assumption, that the Giza plateau pyramids were built and utilized by fourth Dynasty kings as funerary structures or tombs, cannot be overstated. It is a matter of archaeological fact that none of the fourth Dynasty kings put their names on the pyramids supposedly constructed in their times, yet all other pyramids of Egypt had hundreds of official inscriptions, leaving us no doubt about which kings built them. Even those archaeologists who still stubbornly subscribe to the "tomb theory" of the pyramid do not believe that a queen or anyone else was ever buried in the limestone chamber. Mysterious legends and records tell of watermarks that were clearly visible on the limestone casing stones of the Great Pyramid suggesting that the Great Pyramid existed before the pharaohs during the great flood of Noah's time ... A Man Escaped - DVD

UPC/ISBN Number: 717119162443

Avoiding all the clichés of the prison movie genre, Robert Bresson achieves the impossible in A MAN ESCAPED: he presents a highly minimalist depiction of a prisoner plotting a jailbreak, and is still able to evoke incredible suspense despite the fact that the movie frequently consists of little more than a man toiling away quietly in his cell. Neither Bresson's seemingly odd choice of a past-tense title, nor the fact that the film is based on a real WWII event in which a prisoner successfully escaped a German-run jail in occupied France, lessens the film's impact. As in many of Bresson's films, the protagonist is a possessed individual whose mission sustains him. While he may stubbornly continue planning, the viewer sees the potential hazards he may encounter and feels an incredible sense of tension each time his efforts are stalled ... Andrew Lloyd Webber's first project with lyricist Tim Rice was originally written in 1968 as a school cantata; accordingly, this film uses a framing sequence of a school recital, with an audience of clapping, singing kids and members of the faculty playing the roles. The Old Testament tale of Joseph and his coat of many colors gets a splashy, vigorous treatment with an energetic cast, Las Vegas-style glitz, and catchy, eclectic songs, including "Any Dream Will Do," "Close Every Door," the peppy "Go, Go, Go Joseph," and various bits of country, calypso, and Elvis. Donny Osmond is perfect in the title role, with a strong voice and winning persona, while London stage veteran Maria Friedman performs well in the central role of the narrator. Richard Attenborough appears (and sings a little) as Jacob, and Joan Collins makes a brief, nonsinging cameo ... (Click the picture to go online and read more)

Even after accomplishing his task, Jonah remains as grumpy as ever, but God's patience and humor lead Jonah to understand the meaning of mercy, eventually.

Breathe 014 With everything that we've got going on every day, how many of us ever think about our breathing, about the meaning of breathing? Yet, for thousands of years, people have understood that our physical breath is a picture of a deeper spiritual reality. In the Bible, the word for "breath" is the same as the word for "spirit." There's an inherent dilemma at the core of what makes us human. We've all been created in the image of God and possess immense power and strength ... BULLHORN 009 God loves everyone, so a Christian should, too. In fact, Jesus said that the most important thing in life is to love God with everything we've got and love others the same way. But it's not always easy to love everyone around us, is it? Sometimes we strongly disagree with other people's political views, religious beliefs, behaviors or something else, and it makes it hard to love them when we feel like we're right and they're very wrong. KICKBALL 006 We always think we know what's missing from our lives in order to really make us happy, don't we? If only I had that car, or that job, or if only I could lose those 15 lbs, then I'd be happy. Really? How often do we want something only to find out that it wasn't that great after all? Sometimes we ask God for things and if He doesn't deliver right away, we start questioning whether God really understands or even cares. Do we really trust God? Do we trust that God is good and sees a bigger picture than we ever could? It's easy to want what's right in front of us, but maybe God knows what's better for us, and sometimes we just can't see it. Amazing Grace: The History & Theology Of Calvinism - DVD

UPC/ISBN Number: 026297894337

Studio: *Apologetics Group*

Just what is "Calvinism"? Does this teaching make man a deterministic robot and God the author of sin? What about free will? If the church accepts Calvinism, won't evangelism be stifled, perhaps even extinguished? How can we balance God's sovereignty and man's responsibility? What are the differences between historic Calvinism and hyper-Calvinism? Why did men like Augustine, Luther, Calvin, Spurgeon, Whitefield, Edwards and a host of renowned Protestant evangelists deny the Arminian definition of free will and label it heresy? Why did the Roman Catholic Church condemn the Reformed teaching of predestination and election and embrace free will theology? And why do so many Protestants, perhaps unwittingly, agree with Rome on this issue? Amazing Grace — The History and Theology of Calvinism is the first video documentary that answers these and other related questions. Hosted by Eric Holmberg (Hell's Bells 1 & 2; The Massacre of Innocence) this fascinating three-part, four-hour presentation is detailed enough so as to not gloss over the controversy. At the same time, it is broken up into ten "Sunday-school-sized" sections to make the rich content manageable and accessible for the average viewer. Part One explores the history of the debate ... Just what are "the marks of a cult"? The Lord Of The Rings: The Return Of The King - DVD

UPC/ISBN Number: 794043692925

Studio: *New Line Cinema*

With *The Return of the King*, the greatest fantasy epic in film history draws to a grand and glorious conclusion. Director Peter Jackson's awe-inspiring adaptation of the Tolkien classic *The Lord of the Rings* could never fully satisfy those who remain exclusively loyal to Tolkien's expansive literature, but as a showcase for physical and technical craftsmanship it is unsurpassed in pure scale and ambition, setting milestone after cinematic milestone as the brave yet charmingly innocent Hobbit Frodo (Elijah Wood) continues his mission to Mordor, where he is destined to destroy the soul-corrupting One Ring of Power in the molten lava of Mount Doom. While the heir to the kingdom of Men, Aragorn (Viggo Mortensen), endures the massive battle at Minas Tirith with the allegiance of the elf Legolas (Orlando Bloom), the dwarf Gimli (John Rhys-Davies) and the great wizard Gandalf (Ian McKellen), Frodo and stalwart companion Samwise Gamgee (Sean Astin) must survive the schizoid deceptions of Gollum, who remains utterly convincing as a hybrid of performance (by Andy Serkis) and subtly nuanced computer animation. Jackson and cowriters Fran Walsh and Philippa Boyens have much ground to cover; that they do so with intense pacing and epic sweep is impressive enough, but by investing greater depth and consequence in the actions of fellow Hobbits Merry (Dominic Monaghan) and Pippin (Billy Boyd), they ensure that *The Return of the King* maintains the trilogy's emphasis on intimate fellowship ...
