## Helpful hints:

1. Measure the height and width of wall space available for your wardrobe. This will help you choose a solution that fits within those dimensions.
2. Think about the kinds and amounts of clothes, shoes and items you want to store in the wardrobe. This helps you choose interiors that are specific to your needs.
3. Consider the room and its decor and how you would like your room to look. Choosing a style that suits the environment will help maintain a sense of unity and style in your room.

## PAX sliding doors

Sliding doors bring a modern and minimal feel to your wardrobe. As well as removing the need to have extra floor space when they're open, they give a clear and unobstructed view of your clothes, making selection clear and easy. And, in those bleary eyed mornings before work, the less obstructions there are to stumble around, the smoother your day can begin.
