PRECISE, SUPERIOR PERFORMANCE FOR FIREARM MAINTENANCE

For decades these four legacy brands have made up the most honored names in the Firearms Accessories industry with products ranging from premium cleaning accessories and maintenance equipment to chemicals, polymer shotgun stocks and scope mounts. KleenBore™, SPEEDFEED®, Break Free® and B-Square® have been the proud products of our military, law-enforcement and sports shooting circles like no other brand names. Now united under the Safariland™ banner, our accessories are the overwhelming choice around the world. And for good reason. As always, we work hard to build on the unique leadership position we have earned, offering the industry's most extensive range of top products. We have combined our renowned legacies of innovation, quality and customer care to provide genuine one-stop shopping for every type of firearm accessory you need. Today's Safariland™ remains totally committed to the avid sportsmen and to serving those who put it all on the line to uphold order and keep the peace.

FIREARMS ACCESSORIES — BRAND INTRODUCTION

OVER 50 YEARS OF EXPERIENCE IN GUN MAINTENANCE

Safariland features Classic and Specialty cleaning kits by KleenBore™ made of the best cleaning components in the industry for rifles, handguns and shotguns. Our kits are backed by over 50 years of experience and are the favorite of hunters, law enforcement and the military. Quality products that are compact, and easy to carry, in the field or on the range. You get fast and easy removal of impacted mud, snow or a squib load. Our products are also backed by a limited lifetime warranty.

THE UNDISPUTED CHOICE FOR SHOOTERS WHO EXPECT PRECISION

Safariland Firearms Accessories products from KleenBore and SPEEDFEED are the result of technological breakthroughs for the ultimate in performance. The Saf-T-Clad® epoxy thermal-setting resins are applied on high-grade, solid steel rods that provide a securely bonded coating. This process provides an unbelievably smooth surface for the ultimate in rifling and bore protection. The undisputed choice for shooters who expect absolute precision from their equipment. SPEEDFEED stocks are poured thicker with 30-percent glass-filled resin so the stocks maintain their integrity with heavy use, performing even under serious pressure.

SAFARILAND

ORIGINALLY DEVELOPED FOR THE U.S. MILITARY'S EXTREME CONDITIONS

What makes our CLP® better? In 1971, the U. S. military sought a new product to improve weapon performance in the world's most challenging environments. They issued a set of criteria that came to be known as the "impossible specification". They only found one product to meet that standard: BreakFree® CLP®.

- It has been proven to perform in temperatures ranging from -65° F to +475° F and after saltwater immersion
- It is manufactured from the highest-quality polymerized synthetic oils plus friction-reducing anti-wear additives
- It reduces metal-to-metal wear by layering surface areas with an advanced boundary film
- It does not degrade under high temperatures and extreme pressure. Other brands may contain wax-based materials that will degrade and solidify into a gummy residue
- It displaces and loosens residue and contaminants from bearing areas
- It protects metals with special rust inhibitors

KNOWN WORLDWIDE FOR INNOVATION IN MOUNTING SYSTEMS

B-Square® is the industry standard in scope mounts and rings. Scope mounts for sporting rifles require no gunsmithing and install in minutes. The quick-detach mounts have return-to-zero capability and sport extra-long ring mount rails to achieve maximum eye-relief adjustments. The B-Square no-gunsmithing, semi-auto pistol mounts integrate with the pistol's original components to assure optimum performance with every trigger-pull and are superior to any grip-mounted system. B-Square Shotgun Saddle mounts are the industry leaders for mounting optics on shotguns without having to use a gunsmith. Innovative designs by B-Square provide a convenient, secure and stable platform.

FIREARMS ACCESSORIES — BRAND INTRODUCTION

SAFARILAND

safariland.com/firearmsaccessories 800 347 1200

AR-15 ACCESSORIES

AR-15 MOUNTS

SAF-S30 Single Ring Mount

- 30mm tube diameter
- Designed for 30mm red dot sights requiring single ring mounting
- SAF-S30 is wider at the base than the mounting ring
- Provides maximum stability and strength for attaching to the receiver
- SAF-S30FDE Flat Dark Earth color option

SAF-S30C Single Ring Mount Cantilever

- 30mm tube diameter
- Single ring mount cantilevered forward to enable the use of night vision or magnifiers
- Receiver mounting base is wider than the mounting ring
- Provides maximum stability and strength for attaching to the receiver
- SAF-S30CFDE Flat Dark Earth color option

SAF-D30 Double Ring Mount

- 30mm tube diameter
- Designed for use with telescopic sights
- SAF-D30 has two rings integral within the mounting base
- A single clamp is secured by two MIL-SPEC thumb knobs to maximize strength and rigidity
- The forward ring is cantilevered to allow for maximum eye relief
- SAF-D30FDE Flat Dark Earth color option

TACTICAL ACCESSORIES

TAC-0007 AR-15/16 Flat Top Riser

- Fits all Flat-Top AR-15s and similar
- True Picatinny design
- Fits all standard dovetail and Picatinny rails

BASES & MOUNT SYSTEMS

CLASSIC MILITARY MOUNTS

18561 Mauser 98 (German) Scout Mount

- Replaces rear sight leaf
- Elevation adjustment so any LER (pistol) scope can be used without a change in zero
- Standard dovetail base
- Includes 1" ring

18477 Springfield 1903

- Replaces the gun's magazine cut-off
- See-under mount allows use of gun's sights
- Quick on and off with no change in zero
- Windage and elevation adjustments
- Includes 1" rings

CLASSIC MILITARY MOUNTS (includes 1" rings)

18564 SMLE MK 1 #4, #5 (rec mount)

18554 Springfield M-1 Garand (rec mount)

MODERN MILITARY MOUNTS

18526 Colt AR-15/16 See-Thru Carry Handle Mount

- Attaches to the gun's handle with a large thumb screw knob
- Return to zero capabilities
- Standard dovetail base
- Black matte only

15150 Colt AR-15/16, M16 Flat Top w/ integral rings

- Base complete with 1" integral rings
- Attaches to gun's dovetail by large thumb screw knobs
- Return to zero capabilities
- Raises the scope over the front sight
- Fits Weaver® style and Picatinny rails

18513 Heckler & Koch 91/93/94/MP5

- Snaps over the gun's receiver
- Locks with a single knob

CLEANING KITS

POLICE KITS

- Tailored specifically to meet the cleaning needs of firearms that are used heavily in the field
- The police handgun kits and the shotgun kit include a 1/4" diameter, precision ground stainless steel rod
- The 5.56mm, 7.62mm and .30-06 kits include a solid steel, black oxide rod
- Both rods feature a muzzle guard to prevent damage to the bore and a rotating handle that provides a precise clean by allowing the rod to tightly follow the rifling
- Each kit features a 2 oz. bottle of powerful No. 10 Copper Cutter to counter the effects of jacketed rounds
- Includes 1/2 oz. Break Free® Lubricant/Protectant – a synthetic oil specially formulated for modern firearms
- Kits also include 100% cotton patches, a doubled-ended nylon brush, a Silicone Gun and Reel Cloth and caliber specific jags, brushes and mops

- PS50** .38/.357/9mm
- PS51** .40/.41/10mm
- PS52** .44/.45 Caliber
- PS53** 5.56mm
- PS54** 7.62mm
- PS55** .30-06
- PS56** 12-Gauge

15

KLEENBORE — CLEANING KITS

CLASSIC SETS

- Features the best made cleaning components in the industry, neatly housed in a custom organizer tray and then securely packaged in a rugged, reusable polypropylene storage and carrying case
- Rods in the Handgun, Rifle and Black-powder Kits are made of a smooth, high-grade steel (for maximum strength) with a black oxide finish and rotating handles
- Each kit also includes a plastic muzzle guard to protect the crown of the barrel during the cleaning process
- The shotgun kits feature a polished aluminum, three-sectioned rod set
- All kits include a 2 oz bottle of Break Free® CLP® to Clean, Lubricate and Protect the firearm, a double-ended nylon utility gun brush, Silicone Gun and Reel Cloth and 100% cotton patches
- A Classic Kit is available for virtually every firearm you own

BK214 Universal Muzzleloading Kit

- Set up like the Classic Universal Kit, this is the perfect starter kit for all muzzleloading applications
- Kit comes with the absolute basics such as a variety of patch holders and all necessary hardware
- Brushes are sold separately

SAF-300 Saf-T-Clad® Universal Cleaning Kit

- The Universal Saf-T-Clad® Kit cleans handguns, rifles, and shotguns and is neatly packed in a storage case
- This convenient kit includes a five-section, 30" Saf-T-Clad rod w/muzzle guard, nylon gun brush, Break Free® CLP®, handgun/rifle patch holder, shotgun patch holder, accessory adapter, cotton patches, and a silicone gun and reel cloth
- Just team up the desired brushes to clean the firearm of your choice

UK213 Universal Kit

- The forerunner of the multi-use cleaning kit, the Universal Kit allows users the ability to clean an array of firearms

RIFLE KITS

- Classic Rifle Kits utilize steel rods rather than aluminum because they are more durable and less abrasive
- Engineered like the rods specified by the U.S. Government, they offer a much better thread system than the competition
- Rods are less apt to bend and break where the sections connect
- Kits are caliber specific and include the appropriate bore brush and cotton patches

- K204** .243/.25/6.5mm
- K206** .264/.270/7mm
- K209** .41/.45 Caliber
- K205** .22/.223/5.56mm
- K207** .30/7.62mm
- K208** .338/8mm

SMALL BORE Kits

- The .17 and .204 caliber kits feature KleenBore™ signature solid steel, three-piece rod with rotating handle 34 inches in length
- The rotating handle allows the rod to tightly follow rifling, preventing the small caliber firearms from becoming inaccurate due to fouling
- A 2 oz. bottle of Break Free® CLP® provides a quick and easy gun care that cleans, lubricates and protects
- Also included are caliber-specific phosphor bronze brushes, cotton mops and precision brass jags
- A double-ended nylon bristle brush, 100% cotton patches and a silicone gun and reel cloth finish the small bore kits

K20 .204 Caliber
K17 .17 Caliber
K1704 .17/.204 Caliber

- POC226** .44/.45 Caliber

SAF-T-CLAD® RODS

- Saf-T-Clad® products are the result of a technological breakthrough involving epoxy thermal setting resins
- Resins are carefully applied in the United States on local, high-grade, solid-steel rods, and securely bond our Saf-T-Clad® coating
- This special process provides an unbelievably smooth surface for the ultimate in rifling and bore protection
- An excellent choice for shooters who do a lot of cleaning and expect absolute precision from their equipment

SAF301 Universal Rod Set

- Compact, reusable clamshell case contains a five-section 30" rod with black nylon muzzle guard
- Handgun/rifle patch holder, shotgun patch holder and accessory adapter (.22-.45, all gauges)

SAF400 One-Piece Rifle Rod

- 33" Saf-T-Clad® rod comes with a protective muzzle guard and coated patch holder
- Non-segmented for strength and seamless cleaning
- This rod is an economical workhorse for any .22-.45 caliber rifle

SAF303 .17 Caliber Rod

- 33" one-piece rod comes with a phosphor bronze brush, cotton mop and barbed .17 caliber brass jag
- Distinctive blue coating is securely bonded to a steel rod for strength and added bore protection
- Can also be used on a .204 cal. with proper brush

SAF302 Handgun Rod

- Tailored specifically for handguns
- 6 1/2" Saf-T-Clad® rod and accompanying coated patch holder cover .22-.45 caliber pistols and revolvers with barrels up to 8"

SAF-401

Deluxe Two-Piece Rifle Rods .22-.264

- Created especially for precision shooters
- 46" rod, machined from 13/64" diameter steel
- Feature brass muzzle guards, patch holder, .22-.25 jags, black Saf-T-Clad® coating and nylon swivel handles with brass faceplates
- Use the 25" working handle section to clean shorter barrels from the muzzle end
- Add the 20" second section for longer barrels or when cleaning from the breech

CLEANING RODS

CLASSIC ONE-PIECE RODS

- A wide variety of American made non-segmented rods in steel and aluminum in an array of lengths to meet your needs
- All rods are carefully crafted to be strong, no-fray and remain straight in the barrel. Some imported rods can bow, break, or peel, damaging valuable rifling
- One-piece, U.S. made rods with rotating handles

OP105 .17 Caliber/Airgun

- 33" Steel rod with phosphor bronze bore brush, cotton mop and a brass jag

OP106 .22-.45 Handgun

- 6½" Steel rod with a slotted patch holder

OP107 .22-.45 Rifle

- 33" Steel rod with a slotted patch holder

OP108 Shotgun All Gauges

- 34" Aluminum rod with a slotted patch holder and accessory adapter

OP110 .38-.45 Caliber GI Issue

- 8" Steel rod with built in patch holder and female #8-32 threaded end

DELUXE ONE-PIECE RODS

DR100 .22-.45 Handgun

- 9" Stainless steel rod with a slotted patch holder

DR101 .22-.45 Silhouette

- 16" Stainless steel rod with a slotted patch holder

DR101A .22-.45 Silhouette

- 22" Stainless steel rod with a slotted patch holder

DR102 .22-.45 Rifle

- 33" Stainless steel rod with a slotted patch holder

DR100B .22-.45 Handgun

- 9" Brass rod with a slotted patch holder

DR102B .22-.45 Rifle

- 33" Brass rod with a slotted patch holder

DR103 Shotgun All Gauges

- 34" Stainless steel rod with a slotted patch holder and accessory adapter

DR103B Shotgun All Gauges

- 34" Brass rod with a slotted patch holder and accessory adapter

DR106 .22-.45 Benchrest

- 44" Stainless steel rod with a slotted patch holder

MULTI-SECTIONAL CLEANING RODS

- KleenBore™ rods are precision-machined in the United States from top quality stock to exacting tolerances and surface smoothness
- Won't bow, break, bend or fray, which can cause damage to precious rifling
- Durable nylon handles on the rifle and pistol models rotate smoothly allowing brushes and jags to travel efficiently down the bore
- All multi-section rods are packaged in well-made vinyl pouches for long-term storage

A171 Shotgun All Gauges

- Three-piece 32" aluminum rod with a slotted patch holder and shotgun accessory adapter

A173 Blackpowder

- Four-piece 46" aluminum rod with two slotted patch holder and shotgun accessory adapter (5/16-27 thread)

KB99 Universal Big Bore

- Four-piece 33" stainless steel rod with a slotted patch holder, shotgun patch holder and shotgun accessory adapter (5/16-27 thread)

AIR174

.177/.200 Handgun/Rifle/Airgun

- Two-piece 23" steel rod with a black nylon bore brush, cotton mop and brass pellet pusher/jag

S169 .17 Smallbore

- Three-piece 34" steel rod with a phosphor bronze bore brush, cotton mop and a jag

S170 .22-.45 Handgun/Rifle

- Four-piece 34" steel rod with a slotted patch holder and accessory adapter (#8-32 thread)

VALU-PAK ROD SETS

- This economical cleaning kit is the perfect alternative to purchase a full kit at Valu-Pak price
- All components are the same American made components as all our rods and accessories with precise specifications and a smooth, tight fit
- Caliber specific kits listed below include muzzle guards, patch holders, phosphor bronze brushes and mops
- The VP-60 does not contain these items because of its universal nature
- All items are nicely packed in a storable, reusable clam

VP12 12-Gauge Shotgun

VP20 20-Gauge Shotgun

VP60 Universal Handgun/Rifle/Shotgun

VP61 .22/.223/.225/5.56 Rifle

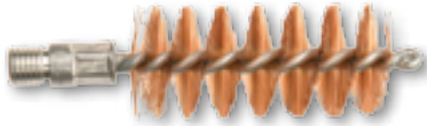

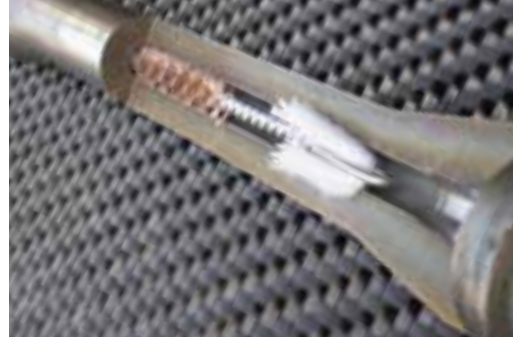

TOOLS & ACCESSORIES

Handgun/Rifle	#8-32
Shotgun/Blackpowder	5/16"-27
Small Bore .17, .204 caliber	#3-48
Military Style Brushes	#8-36

PHOSPHOR BRONZE Brushes

- These precisely designed brushes feature KleenBore™ carefully-made, thicker, straight bronze wire bristles
- Designed with rounded, smoother bristle tips rather than sharp, crimped, narrow imported brushes.
- These bronze brushes offer more safe and effective cleaning power
- Will not easily bend from force down the bore
- Guaranteed not to damage precious rifling

MILITARY STYLE Brushes

- All KleenBore™ military style brushes are designed specifically for M-16, AR-15, AK-47 and similar rifles
- The brushes are available in .22/.223/5.56" and .30/7.62mm
- The chamber brush is configured with two diameters; the first stage of phosphor bronze cleans the chamber area, while the second stage of stainless steel cleans the bolt-lock area

M16B	.223/5.56mm (bore) (#8-36)
M16C	.223/5.56mm (chamber) (#8-36)
AKB	.30/7.62mm (bore) (#8-36)

AKC	.30/7.62mm (Chamber) (#8-36)
SKS	.30/7.62mm (Chamber) (#8-36)

- Feature core wire looped through a brass coupling that is threaded at #8-36
- Bore brushes are made of phosphor bronze with a brass wire core for a longer life for rigorous cleaning
- Please note the #8-36 thread is not commercially standard, but will fit most KleenBore™ multi-section rods

COTTON Bore Mops

- 100% cotton provides the absolute best absorbency over any synthetic-fiber mop
- Thickest, best cleaning and lubrication mops on the market

UTILITY BRUSHES

UT221 Nylon Bristle Gun Brush

- This military spec brush is great for cleaning any type of firearm, especially where a gentle touch is required
- Nylon bristles are rugged and solvent-resistant

UT222 Stainless Steel Gun Brush

- Rugged stainless steel bristles make short work of caked-on powder residue and burn marks on revolver top straps, frames and cylinders

UT223 Phosphor Bronze Gun Brush

- A superb, general purpose, gentle-on-the-finish brush for cleaning powder and lubrication residue from handguns, rifles and shotguns

CLEANING JAGS

- A metal jag, draped with a proper sized patch, completely covers the entire bore for efficient, thorough cleaning
- For ease of use, KleenBore™ unique design incorporates a special barbed point at the tip of the jag to secure the cleaning patch and prevent solvent soaked patches from falling off

JAG226 .177/.200 Airgun
JAG228 .270-.32 Caliber
JAG231 .44/.45 Caliber
JAG17 .17-.204 Caliber
JAG229 .38/.357/9mm

JAG233 20-16-Gauge
JAG227 .22-.25 Caliber
JAG230 .40/.41/.410/10mm
JAG234 12-Gauge
JAG250 .50 Caliber

JAG-X2 Universal Jag & Patch Strip Dispenser

- The JAG-X2 offers a convenient way to clean everything from a .22-.45 caliber firearm
- Simply follow the scale on the back of the dispenser and cut the desired length of patch for the caliber to be cleaned
- Wrap the patch around the barbs and clean away
- Contains approximately 84" of material

MULTI-CHOKE Shotgun Cleaning Jag

- Multi-choke nylon jags offer an efficient way of cleaning a bore and choke
- Petal design compresses when bore cleaning, the patch is continually putting equal pressure on the bore for a better cleaning job
- Allows the dirty patch to compress and pass thru a full choke and out the muzzle instead of back into the chamber
- The barbed tip secures the patch while cleaning
- The #5/16-27 thread will fit all KleenBore™ shotgun rods

JAG12N 12-Gauge
JAG20N 20-Gauge

MUZZLE GUARDS

- Use of a muzzle guard can prevent the damage to the sensitive barrel crown when cleaning from the muzzle end
- A muzzle guard keeps the cleaning rod centered
- Works equally as well when cleaning bolt-action rifles from the muzzle or breech

ACC14 Brass for .203 dia. handgun/rifle rods

• #5-4(M) to #3-48(F) Conversion Adapter

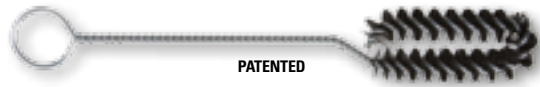

MAGAZINE BRUSHES & MOP

- Important item for competitive shooters, law enforcement and the military
- The patented MagBrush removes gummy residue, dust, dirt and unburned powder from inside the magazine
- Provides quicker, easier magazine release and increased cartridge-feed reliability
- Companion to the MagBrush series, the MagSwab can be used with a solvent to mop clean the inside of magazines
- Have an additional MagSwab on hand to solely apply a light coat of lubricant to protect to protect both areas after cleaning

MAG208 MagSwab 9mm Staggered/.38/10mm/.40/.45

- MAG200** MagBrush .22/.25/.380/9mm Straight Stacked
- MAG202** MagBrush 9mm/10mm/.40/.45 Staggered
- MAG204** MagBrush .38/.40/10mm/.45 Straight Stacked
- MAG206** MagBrush AR-15/M-16/AK-47

SPECIALTY TOOLS

SHOTGUN Snap Caps

- Firing on an empty chamber can result in damage to a firing pin
- Using Snap Caps in empty chambers allows for the safe release of the firing pin, or "dry-fire"
- The caps also serve to relieve pressure on the firing pin spring when camber is closed and the trigger is pulled
- Made from solid aluminum and brass spring loaded primer to absorb the force of the firing pin and prevent damage, the caps are color coded and stamped with the appropriate gauge

- CAP12** 12-Gauge
- CAP20** 20-Gauge

ACU1 Accu-Wedge

- Buffers AR-15/M-16 cycling system to reduce wear and provides a more solid feel by eliminating play in the receiver
- Easy to install, requires no firearms modifications

BL304 Bore Inspector®

- Fiber optics light the bores of handguns, rifles and shotguns to make checking for leading, fouling, and rust fast and easy
- Ideal for regular firearms maintenance or for examining used guns prior to purchase
- Two AAA replaceable batteries supplied

CF-9 .45/9mm Chamber Flag

- On the range and when transporting or storing semi-automatic handguns, a chamber flag immediately indicates that the gun is clear and no round can be chambered

CF-22 .22 Caliber Chamber Flag

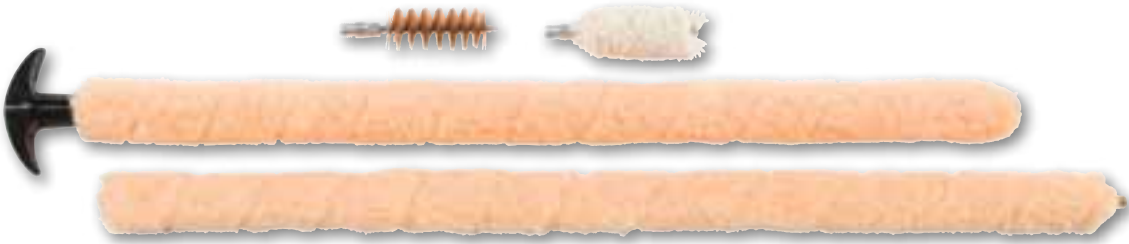

CLAYMATE® Shotgun Cleaning Tool

- The ClayMate is a compact two-section shotgun cleaning tool
- The soft fibers of ClayMate effectively pick up unburned powder, which is lifted by a screw-on phosphor bronze brush—providing unbelievably quick and effective cleaning
- Also included is a screw on bore mop for applying a light coating of a favorite KleenBore™ solvent or lubricant
- Total assembled length is 36", breakdown length is 19" for easy storage in a gun case or range bag
- The ClayMate can be easily washed and reused for another day of busting clays

CM270 12/16-Gauge ClayMate Shotgun Cleaning Tool
CM272 20-Gauge ClayMate Shotgun Cleaning Tool

VCI GUNNYSOCKS

- Corrosion in storage can be a real problem for firearms collectors and enthusiasts
- KleenBore™ has applied the same Vapor Corrosion Inhibitor technology in the Inhibitor bags to provide a convenient alternative
- VCI technology penetrates into the smallest cracks and crevices of firearms that oils can not reach, offering unbelievable long-term protection of the Gunnysocks of old
- VCI Gunnysock better fits scoped firearms and provides a cushioning layer of fabric around your valuable firearms
- These socks are not only perfect for storage, but also short-term travel and even are considered a travel case because of the string around the end of the sock in many ranges nationwide

GSVCI161 Rifle/Shotgun (including scope)

CHAMBERMATE Shotgun Cleaning Tool

- The ChamberMate is a rugged tool with a strong aluminum rod and sure grip handle
- A heavy-duty phosphor bronze brush with tapered nose is made to fit difficult-to-clean areas and is ideal for quickly cleaning muzzle ports from the inside out
- The brush is great for cleaning powder fouling and plastic from chambers and choke area

SC225 12-Gauge
SC226 20-Gauge

THE PROTECTOR Gun Cleaning Mats

- KleenBore™ professional gun cleaning mats are ideal for firearms cleaning, maintenance and protection at the range or in the field
- This soft, sealed surface protects firearms during cleaning and maintenance, while absorbing spills because of its deep wicking properties
- The Protector has a non-skid, non-leaking back (to most solvents tested)
- Easily cleaned by simply washing with soap and water

GM24 Handgun 18"x 24"
GM48 Rifle/Shotgun 18"x 48"

GUNSMITHING TOOLS

T0045 Pro Gunsmith Screwdriver Set

- 26 hardened steel bits: Phillips, Slotted, Hex, Torx, and Posi-Drive
- Three long bits for recoil pad and see-thru mount installation
- A full-featured screwdriver
- One 1/4" socket drive adapter
- All housed in a sturdy molded case with individual compartments for each item

T1001 Cross Hair Alignment Tool

- Will square up your scope or front sight in seconds
- Accurately sets scope vertical reticle position and determines front sight ramp vertical
- Eliminates removal of action and barrel from gunstock
- Fits into the receivers of most bolt action centerfire rifles
- Made of optically clear plastic that will not mar the gun's finish

T0114 Sling Swivel Installation Kit

- Use with an 1/4" electric hand drill or in a drill press
- Includes a 5/32" drill bit, 7/32" safety counterbore drill bit and a #10 drill bit

T1005 Bubble Level 11mm Dovetail

- Insures bore alignment and reticle alignment at a glance
- White scribed line on housing for quick reference

T1006 Bubble Level Weaver

T1100 Front Sight Pusher

- Adjusts dovetail sights without hammering or damage
- Two hardened posts opposite a pusher ram extend or retract by turning a screw

T1864 SKS/AK Front Sight Elevation kit

- Sight Pusher tool clamps to the front sight post
- Adjusts sight in either direction without repositioning
- Sight Elevation Tool T-Handle wrench fits over the gun's front sight post
- Screws in or out for elevation adjustment
- T1863 SKS/AK Sight Elevation tool

LP-199 Lead Away® Patches

- Lead Away Patches wipe away stubborn carbon and lead build-up
- (25) 1 1/4" square patches in a resalable clamshell package with hanger hole

GC-221 Lead Away®

- This chemically treated cloth is ideal for removing tough lead and carbon build-up. Excellent for removing burn rings on cylinders and on stainless steel
- Excessive rubbing may remove bluing

GC-220 Silicone Gun & Reel Cloth

- Restore and protect the luster of your firearms with our top-quality silicone impregnated cotton flannel
- This 100 square inch cloth returns a brilliant sheen to your gun's surface, while removing handling marks and providing a layer of rust protection

CLEANERS & SOLVENTS

GB2 Black Magic™ Bluing Solution 2 oz. (59 ml)

- This premier, high performance cold bluing solution, previously available only to gunsmiths, produces a deep, penetrating action to restore worn or scratched gun metal to like-new finish
- Black Magic is the choice of major firearms manufacturers for touching up guns before they leave the factory
- Packaged in a container with a child-resistant cap and expert, easy-to-follow instructions

G05A Gunk Out™ Cleaner Degreaser 15 oz. (55 g) Aerosol

- Gunk-Out quickly blasts away caked-on oil contaminated with dirt, dust and powder residues
- The chemical is also great for flushing out loosened fouling and for degreasing prior to bluing

NO. 10 GUN CLEANING SOLVENT

- Tried and true, No. 10 is a fast, efficient solvent that quickly penetrates and lifts lead, powder residue, and metal fouling for quick, easy cleaning

S10S
2oz. (59 ml)
With Pump Spray

S10

GC-16 12 oz. (340 g) Powder Blast™

- Powder Blast™ keeps all guns clean and dry by blasting away firing residues
- Use it on trigger groups and mechanisms to quickly and easily remove contaminants, without leaving a white residue or unpleasant odor
- Eliminates powder residue, plastic streaking, grease and oil build-up
- No disassembly required – the extender tube provides easy access to hard-to-reach areas
- Will not hydrolyze to form hydrochloric acid, unlike products containing 1,1,1 Trichloroethane
- After using Powder Blast™, protect your gun with Break Free® CLP®, or Collector®

BCF-3 3.06 oz. (88 ml) Bore Cleaning Foam

- Gently cleans using a chemical reaction to remove copper and brass compounds with no mechanical friction
- Quickly removes residue in 15 minutes
- Protects with a film that slows down renewed accumulation of similar residues
- Foam application runs less than other cleaning agents, such as ammonia-based products
- Efficiently removes normal combustion waste, eliminating the need for a second cleaner
- Non-toxic, odorless, PH value of 12
- Usable in temperatures between minus 30° and 50° Celsius

CAC-4 4 oz. (120 ml) Carbon Cutter®

- Carbon Cutter® was specially formulated to cut carbon buildup from your firearm
- Carbon Cutter® liquefies the carbon from any weapon barrel. Ideal for removing carbon from black powder rifles
- Removes black powder
- No ammonia
- PH neutral

BFI-PASTE 2 oz. (56 g) Bore Paste

- Break Free® Bore Paste restores accuracy by removing hardened powder residue, copper and moly fouling
- Paste won't eat away at your bore
- Cleans quickly and better than ordinary solvents and cleaners
- A must-have for professional shooters
- After cleaning, always coat with Break Free® CLP® or Collector® to prevent rust and corrosion

LUBRICANTS & PROTECTANTS

CLEANS, LUBRICATES, PRESERVATIVE (CLP®)

- Originally developed for the U.S. Military and proven in the world's most extreme conditions
- Break Free® CLP® is the unquestioned gold standard formula for cleaning, lubricating and protecting firearms
- More than a superior lubricant, CLP actually cleans firing residue and firing residue, oil, grime and grease from the bore, moving parts and exterior of firearms while simultaneously reducing friction and protecting from corrosion

WHY BREAK FREE® CLP?

- It has been proven to perform in temperatures ranging from -65°F to +475°F and after saltwater immersion
- It is manufactured from the highest-quality polymerized synthetic oils plus special friction-reducing, anti-wear additives
- It reduces metal-to-metal wear by layering surface areas with an advanced boundary film
- It does not degrade under high temperatures and extreme pressure. Other brands may contain wax-based materials that will degrade and solidify into a gummy residue
- It displaces and loosens residue and contaminants from bearing areas
- It protects metals with special rust inhibitors

1 U.S. Gallon (3.8 l)

DP-7 Counter Merchandiser Display

Includes:

- Complimentary display tray
- 1 case of 12 aerosol cans of 12 oz. (340 g) CLP®
- 1 carton of 10 aerosol cans of 4 oz. (113 g) CLP
- 1 carton of 10 bottles of 4 oz. (120 ml) CLP
- 1 carton of 20 bottles of .68 Oz. (19 ml) CLP
- 1 carton of 10 CLP Precision Shooter® units

CLP-PS Precision Shooter®

- Needle-style applicator that delivers 0.2 ounces (7.5 ml) of CLP®
- Pinpoint accuracy to clean, lubricate, and prevent rust in hard to reach areas

BFI-WW Multi-Surface Wipes

- Break Free® Multi-Surface Wipes are soft, absorbent, nonwoven cloth wipes pre saturated with Break Free® CLP®. Eliminates the need for messy oils, cleaners and cut cloths
- Cleans and maintains small arms and rifles for use in all weather conditions
- Ideal for fishing equipment, knives and other outdoor gear
- Includes twenty 6¾" x 3" wipes

COLLECTOR

CO-4 4 oz. (120 ml) Collector®

- Developed to protect firearms for up to five years in storage, Collector® exceeds stringent military specifications
- Recommended for the occasional hunter or sports shooter as well as knife and sword collectors
- Ideal for seasonal sports equipment before placing in storage
- In one test, Collector protected steel panels from rust and corrosion for over 1200 hours in 100% humidity
- Does not degrade to waxy residue under heat or pressure
- Resists damage from fingerprint residue and minimizes the need for frequent wipe down
- Perfect for gun collectors, armories and museums

DP-2 Collector® Kit

- The Break Free® Collector® Kit includes everything needed to protect and maintain your most prized firearms for display or storage
- 4 oz. (120 ml) CLP: Cleans, lubricates and preserves using the highest quality synthetic oils and special friction reducing, anti wear additives and rust inhibitors
- 4 oz. (120 ml) Collector: Developed to protect firearm for up to five years in storage
- Will not degrade under heat or pressure, resists damage due to fingerprint residue

INDUSTRIAL

PROTECTANT CLEANER LUBRICANT (PCL®)

- A superior mineral oil based industrial maintenance lubricant
- Delivers up to four times greater performance in wear tests than other brands
- Contains synthetic base stocks and rust preventives that will not break down in extreme conditions
- Advanced boundary film provides a long-lasting protective coating to shield against rust and corrosion
- Unique migration activity actually penetrates metal surfaces forcing corrosion to flow away as physical movement occurs under bearing pressure
- Penetrates through water, forming a barrier on metal surfaces that isolates moisture, forcing it to run off or evaporate

PCL-A12
12 oz. (340 g) Aerosol

PCL-L128
1 U.S. Gallon (3.8 l)

PCL-L16
16 oz. (475 ml) With
Trigger Sprayer

LUBRICANT PRESERVATIVE

- Originally developed for fully automatic cannons used by the U.S. military. Break Free® has taken this technology designed to keep weapons working under sustained fire and brought it to the consumer market
- Contains specially formulated polymerized synthetic oils for improved boundary film strength, plus multiple ingredients to reduce friction, stop build-up of foreign particles and inhibit rust and corrosion
- Safe for all gunmetal and gunmetal finishes from blued steel to titanium as well as polymer composite firearms. Also prevents galling on stainless steel
- Non-solvent formula minimizes drain off when firearm is holstered

LP-4
4 fl.oz. (120 ml)
Lubricant Preservative

LP-5
1-Pint (475 ml)
Lubricant Preservative
