A complete kitchen that works as good as it looks

The kitchen is at the center of your everyday life. And no matter if you're mashing potatoes, sorting your garbage or just hanging out, it has to work. 24 hours a day. Whether it's you or all of your friends and family.

That's why IKEA kitchens are thought through inside and out.

The smooth-closing drawers, the smart interior organizers and the durable countertops are the main ingredients. To make the kitchen fully functional for all kinds of chefs, we have a wide range of easy-to-use appliances, developed to match perfectly with your needs and our kitchens. With functions that suit your cooking, IKEA appliances help make your work in the kitchen easier, no matter if you need an instantly responsive gas cooktop when you wok and fry or a convection oven that makes baking a piece of cake.

With smart planning (which we can help you with) your kitchen will be a place for cooking, dancing and doing the dishes. A kitchen where days start, parties end and everything is organized. A complete kitchen, at IKEA prices.

IKEA appliances are developed to match our kitchens and your cooking needs.

All IKEA appliances have a FREE 5-year limited warranty. (Except LAGAN). Find out more on page 73.

The kitchen has a lot of potential to save energy. All our dishwashers and side-by-side fridges and freezers are Energy Star® Qualified. This means they use little energy, which helps a lot. And doing small things – like running the dishwasher only when it's full – saves even more energy in the long run. And money too. Isn't it good then that our appliances have a FREE 5-year limited warranty?

Made for everyday life. Tested accordingly.

Cabinets, Drawers and Shelves To ensure they're really durable we put the weight of enough dinner plates to feed your child's football team on a shelf and keep it there for a week.

Sinks If it's one thing a sink has to put up with, it's water. Stainless sinks are dipped into salt water to make sure there's no corrosion. Ceramic sinks are tested so they don't crack when you pour hot pasta water into them.

Kitchen Fronts Breakfast, lunch and dinner. You open your cabinets many times each day. We hang 22 pounds on a door and then open and close it 200,000 times to ensure it stands years and years of everyday use.

Faucets You use the faucet a lot - doing dishes as well as rinsing. We test durability by turning it on and off 500,000 times and then make sure that there are not any leaks.

Countertops Your countertop must stand hot plates and splashes of tomato sauce, so we drench it in water, oil and coffee and then we impact-test the top and edges to make sure they're durable.

IKEA appliances To avoid fingers getting burned, our ovens have heat-insulating doors. We constantly test our appliances and manufacture every single one according to the most stringent quality standards to make sure they are safe and work for everyday life.

GRUNDTAL cabinet lighting

\$19⁹⁹/ea

The right combination of lighting can make it easier to work in the kitchen. Good task lighting, like countertop spotlights, helps you fillet that fish and the spotlights above the cabinet doors make it easier to find what you need. Add lighting inside glass cabinets and light strips by the floor to help set the perfect cozy mood. General lighting, like pendant lamps, tie it all together. A big change, with small means.

Be prepared, children will explore the kitchen

Think of the whole family when planning the kitchen. Place the cooktop near the sink to reduce the possibility of hot water spillage and use a cooktop guard. Add drawer locks, which are easy for grown-ups to use but hinders children from reaching sharp knives and pointy objects. Then soften sharp corners with corner bumpers and make sure the trolley has locking wheels that make it sturdier. All this makes your kitchen a safe place where everyone can join in on the cooking without worry.

The more workspace you have, the easier the work

The workspace is the most used area in the kitchen. Maximizing it is key to making your kitchen a place where there is space for everyone, so you can catch up while cutting, chopping and slicing. First of all, plan for a big main workspace. Once you have that figured out, it's time to think about the important details that make your kitchen even more effective – sink size, the right countertop material, which space-saving wall organizers you want and what trolley you like the most.

Countertops

Countertops are the tough guys of the kitchen. They face hot pots and sharp objects without fear. They handle oil spills. Still, they look nice. For years. Besides having well-coordinated exteriors, they're made of solid wood or have a core of sturdy fiberboard. Choose precut for a countertop you can take home right away and custom-made when you want something specially fitted. Then pick the finish you like – acrylic, laminate, stone or wood.

Countertops have a 25-year limited warranty. (Except LAGAN and custom order countertops). Find out more on page 73.

Sinks and sink organizers

How much sink space do you need? You can go for one large single bowl – good for cleaning big pots and pans. Or choose a two bowl sink so you can use each separately. Most sinks can be reversed to get the working surface to the left or the right. No matter if you prefer a stainless sink or porcelain, you can always add smart sink organizers to make your sink a practical part of the workzone – for rinsing, preparing, serving and drying.

Sinks have a 25-year limited warranty. (Except LAGAN). Find out more on page 73.

Faucets

The right faucet is the one that works for you and for your kitchen too. That's why IKEA stores have faucets with different functions – from easy-to-use single levers to pull-out spouts for fast rinsing – and in different styles. Most IKEA faucets have a built-in water saving device, which adds more air to the water flow. The water pressure is just as hard and cleans plates just as well, only that 30% less water is used. So, now you can save a little water every time you turn on the faucet.

All kitchen faucets have a 10-year limited warranty. (Except LAGAN). Find out more on page 73.

Appliances made to match your needs and our kitchens

When developing IKEA appliances together with Whirlpool, we have thought about your everyday kitchen needs.

First, consider what type of cook you are – an ambitious amateur or a pasta pro – and how often you cook. Then it will be easier to decide which of all the different chef-friendly functions you need – from quick heat microwave ovens and ovens with true convection to gas and glass ceramic cooktops. IKEA appliances are also designed with energy efficiency in mind. For example, all of our side-by-side fridge/freezers and dishwashers are Energy Star® Qualified.

And if you choose built-in appliances, they fit in seamlessly with AKURUM cabinets to make the look just as smooth as the function. To make sure you get a kitchen that works every day, we provide a free 5-year limited warranty for all our appliances.

All IKEA appliances have a FREE 5-year limited warranty. (Except LAGAN). Find out more on page 73.

Ovens and ranges

Choose from a wide range of ovens, with different functions to suit all kinds of chefs – from basic functions like top and bottom heating and grill to forced air that spreads the heat evenly. With heat-insulating doors as standard it is easy to make your kitchen safe. But remember – no peeking. Opening the door reduces the heat and makes the oven use extra energy.

Thermal oven function with top and bottom heating elements (bake/roast) Combines the top and bottom heating elements to provide a traditional cooking method with the oven hotter at the top. Ideal for cooking dishes with a crispy finish or for slow cooking of casseroles.

Broil Heats to a fixed pre-set optimum temperature. Ideal for even broiling vegetables and smaller pieces of meat.

High and low broil Adjustable broil with two heat zones. One zone can be shut down, which saves energy when broiling small meals.

Convection broil Combines fan and broil cooking functions. Allows you to broil, brown and cook larger dishes and meat all the way through.

Fan defrost A fan at the back of the oven circulates air (without heat) evenly around the frozen food for hygienic and quicker defrosting.

Convection oven function Combines top and bottom heating elements with the fan for even heating. Ideal for baking cookies, tarts and other pastries.

True convection oven A fan behind the back wall of the oven forces pre-heated air through heating elements and then distributes the heated air evenly throughout the oven. Allows you to simultaneously cook different foods at different levels without taking on taste from each other. Cooks and bakes quickly and evenly. You don't need to pre-heat the oven.

Pizza baking For perfect results, this program controls the temperature in the cavity in a way that reproduces the temperature of a traditional wood-burning oven.

Warm keeping This function automatically keeps food warm at 176°F for up to 5 hours. Can be programmed to activate automatically at the end of the set cooking time.

Appliances shown require installation.

Cooktops and microwave ovens

Our cooktops come in a range of functions to suit your cooking style and in different designs to match your kitchen. Gas cooktops are instantly responsive, with sealed burners for easy cleaning. Glass ceramic cooktops offer even heating and are also easy to clean. Microwave ovens let you cook more dishes at the same time. They come in two versions – with or without the extractor fan – and match the other appliances in the same series.

All IKEA appliances have FREE 5-year limited warranty. (Except LAGAN). Find out more on page 73.

Hoods

Cook clean, without food odor and steam. At the same time, make a statement with a free-hanging or wall-mounted hood. Or be discreet and choose a built-in extractor fan. Most hoods can be installed in two ways – in recirculation mode with a charcoal filter or ducted to the outside. The built-in grease filters are easy to keep clean, since they are dishwasher-safe. Which is good, since the hood uses less energy with a clean filter.

Fridge/freezers and dishwashers

Our fridge/freezers come in different sizes, so think about how big you need it to be. Consider if you want a top-mounted model or a side-by-side fridge/freezer. The side-by-side models are all Energy Star® Qualified, which our dishwashers are too. How big your dishwasher needs to be depends on how often you cook and the size of your household. Choose between white and stainless steel dishwashers or go for the integrated model, that you can get with doors to match your kitchen.

All IKEA appliances have a FREE 5-year limited warranty. (Except LAGAN). Find out more on page 73.

How to buy your new IKEA kitchen

1 Get inspired

Can you get your kitchen in white? Or in a brown color? Go to IKEA-USA.com/kitchen and spend some time browsing through kitchens in different styles.

3 Start planning

Use the free 3D planner at IKEA-USA.com/kitchenplanner or use the punch-out puzzle, fill in your measurements and start visualizing your ideas. When planning your kitchen, make sure there is a big main workspace and then consider your storage needs and which appliances you want. Using the kitchen planner, you can save all your ideas on our website and go through them again with our in-store kitchen experts.

2 Measure your space

Almost all kitchen spaces have an awkward corner. But if you measure first, almost everything can be sorted out. If you need help measuring, just contact your local IKEA store and we'll help you get the measuring done right at a low cost.

4 Finalize your solution

When your plan is set, including storage and your choice of appliances, it is time to complete your kitchen. Things like wall organizers and trolleys add both function and style. And don't forget lighting, to make your kitchen look good and work well.

5 Decide how much help you want

An IKEA kitchen is constructed so you can easily assemble and install it yourself to save money. But if you want, we can help you arrange delivery, assembly and installation, by independent contractors at reasonable fees. We can help you with financing too. For more details, contact the kitchen planning specialists in your local IKEA store.

How to plan your new IKEA kitchen

Measuring is the first step

Start with measuring from floor to ceiling, from wall to wall and from the corners to doors.

Then, measure the size of your windows and doors, plus the distance to the ceiling, the corners and the floor. It's also a good idea to mark onto your drawing the space that doors and windows need to open.

Finally, mark the placements of the existing electrical outlets, switches, water pipes, gas connections and radiators/heating vents.

Once you have the measurements, plug them into the kitchen planner at [IKEA-USA.com/kitchenplanner](https://www.ikea.com/us/en/kitchenplanner) and play around to see what's possible.

Getting the work zones right

To create a natural workflow in your kitchen you can divide it into three main work zones – cooking, storing and washing. Placing them right is crucial to get an ergonomic working triangle, where everything is within reach.

For storing, make sure you have enough storage for all the food – both for dry goods and in the fridge. A countertop near your high cabinets and fridge makes it easier to unpack shopping bags. The sink is good to place between cooktop and fridge, so you can prepare food and wash dishes easily. As for the cooking zone, place the cooktop

near the sink for easy access to water so you avoid crossing the kitchen with hot pots and pans.

Having enough workspace is crucial for making your kitchen work well. It is where you bake, chop, mix, stir... A rule of thumb is to have a main workspace that is at least 32½" wide. Preferably it is placed between cooktop and sink, but it can be located on a kitchen island too. In addition, it is good to have workspace on each side of sink and cooktop – for setting dishes to dry and for bowls and pots.

Organizing your kitchen from the inside...

Keeping things near where you use them will help make your kitchen really efficient. Interior organizers like drawer dividers and plate holders keep things organized, within reach and make the most of the storage space you've got.

...and out

Improve kitchen efficiency even more with wall and sink organizers like wall-mounted rails, dish drainers and baskets. They offer easy access storage as well as creating more room to work. Add good task lighting like countertop spotlights and cabinet lighting to make it easier to work.

Measuring You do it

Find step-by-step directions on how to properly measure your current kitchen on page 74 or log onto IKEA-USA.com/kitchenguide to see our complete kitchen guide and measurement instructions plus lots more.

We do it

Would you rather have one of our independent installation specialists measure your kitchen? Contact your local IKEA store and we will be happy to help you arrange for a home measuring visit.

Installation You do it

IKEA kitchens are specifically designed to be easily assembled and installed. But so that you aren't left scratching your head we've produced a self-installation booklet, available in store and online, to guide you along the way. If you need some help while you work, you can rent the services of one of our independent installation professionals. They'll help with the trickier jobs like installing countertops and sinks or using special tools to cut panels and benches.

We do it

Our installation service is an à la carte arrangement, simply meaning you order the service you need, which can include:

- demolition and removal of your old kitchen
- cabinet assembly and installation
- countertop cutting and installation
- installation of sink, faucets and appliances
- connection to electricity, gas and water;
- plus carpentry, flooring and tiling services

All prices and quotes for services are estimated in store, confirmed by the independent installation professional and based on the finalized kitchen plan.

Delivery You do it

Some IKEA kitchens are stocked in the store and are flat-packed so you can take them home. So you don't have to wait to get started. And if you need it, we have free cardboard roof-racks available.

You can also rent a van at your IKEA store. The price is calculated on the type of van that you need and how much time you will need it. You will be required to leave a deposit. See your local IKEA store for conditions and prices. This service may not be available at all IKEA locations.

We do it

If you need assistance getting your purchases home, we can help arrange door-to-door delivery by an independent delivery company at a reasonable rate. The cost for delivery is calculated according to your purchase and the location of your home. For more information visit your local IKEA store's home page at IKEA-USA.com. Of course, the best way to get information is to check with your local IKEA store for rates and delivery times.

Finance service

With the IKEA Credit Card you won't have to wait for the home furnishings that you need. If approved, you can take them home today! Apply now - it's quick, easy and secure. There's no interest if you pay off an IKEA Credit Card purchase of at least \$299 within 90 days* (minimum monthly payments are required). For purchases over \$1,000 you can ask to spread your payments over 24 months* Visit your local IKEA store or IKEACards.com to apply or for details.

*Subject to credit approval.

General conditions for Everyday Quality - Limited Warranties

What is covered under the limited warranty?

The extent of the limited warranty given for each product is described alongside each product below.

Duration of Limited Warranty:

Each limited warranty lasts for the number of years stated against each product below, starting from the date of purchase.

What will be done to correct the problem?

IKEA will examine the product and decide if it's covered under this limited warranty. IKEA through its own service operations or authorized service partner, will then, at its choice, either repair the defective product or replace it with the same or a comparable product. In these cases, IKEA will be responsible for the costs of repairs, spare parts, labor and travel for repair staff that IKEA incurs, provided that the product is accessible for repair without IKEA incurring additional expenditure to gain access. This will not apply in cases where repair work has not been authorized by IKEA (or its authorized service partner). Any defective parts removed in the course of repair works will become the property of IKEA. If the item is no longer sold by IKEA, IKEA will provide an appropriate replacement. IKEA will decide at its discretion, what will constitute an appropriate replacement.

Conditions for the Everyday Quality - Limited Warranties:

The limited warranties are valid from the original date of purchase of the product. In order to rely on this limited warranty, the original receipt is required as proof of purchase by the original purchaser.

Exclusions: The limited warranties do not apply to products that have been stored or assembled incorrectly, used inappropriately, abused, misused, altered, or cleaned with wrong cleaning methods or wrong cleaning products. The limited warranties do not cover normal wear and tear, cuts or scratches, or damage caused by impacts or accidents. The limited warranties do not apply if products have been placed outdoors or in a humid environment or if the products have been used for non-domestic purposes (unless otherwise stated). The limited warranties are for the benefit of the original purchaser of the product and are not transferable. For details see the limited warranty conditions and description for every product. Whirlpool, the original manufacturer of the "For IKEA from Whirlpool" appliances will provide the service through its own service operations or authorized service partner network.

Care instructions:

To be able to claim this limited warranty you need to follow the specific care instructions for every product. You will find all care instructions with or on the product in the IKEA stores.

General Legal Rights:

Some states and provinces do not allow the limitation or exclusion of incidental or consequential damage, so this limitation or exclusion may not apply to you. This limited warranty gives you specific legal rights, and you may also have other rights that vary from country to country, province to province or state to state.

How to reach us if you need service:

Contact your local IKEA store to make a claim under the product specific limited warranty. You will find the address and phone number in the IKEA catalog or at IKEA-USA.com.

Save your sales receipt as proof of purchase. Proof of purchase is required by original purchaser for the limited warranties to be valid.

To find out more pick up the **EVERYDAY QUALITY - LIMITED WARRANTY** folders in your local **IKEA** store.

APPLIANCES - FREE WARRANTY

What is covered under this warranty? This warranty covers defects in material and workmanship that existed when the major appliance was purchased. This warranty applies to domestic use only. The exceptions are specified under the headline "What is not covered under this warranty?".

What is not covered under this warranty?

•Service calls to correct the installation of your major appliance, to instruct you on how to use your major appliance, to replace or repair house fuses, or to correct house wiring or plumbing. •Service calls to repair or replace appliance light bulbs, air filters or water filters. Consumable parts are excluded from warranty coverage. •Replacement parts or repair labor if this major appliance is used for other than normal, single-family household use or when it is used in a manner that is contrary to published user or operator instructions and/or installation instructions. •Damage resulting from accident, alteration, misuse, abuse, fire, flood, acts of God, improper installation, installation not in accordance with electrical or plumbing codes, or use of consumables or cleaning products not approved for use. •Cosmetic damage, including scratches, dents, chips or other damage to finish of your major appliance, unless such damage results from defects in materials and workmanship and is reported within 30 days from the date of purchase. •Any food loss due to refrigerator or freezer product failures. •Pick up and delivery. This major appliance is intended to be repaired in your home. •Repairs and parts or systems resulting from unauthorized modifications made to the appliance. •Expense for travel and transportation for product service if your major appliance is located in a remote

area where service by an authorized servicer is not available. •The removal and reinstallation of your major appliance if it is installed in an inaccessible location or is not installed in accordance with published installation instructions. •Replacement parts or repair on major appliances with original model/serial numbers that have been removed, altered or cannot be easily determined. This warranty is void if the factory applied serial number has been altered or removed from your major appliance. •The cost of repair or replacement under these excluded circumstances shall be borne by the consumer. See also "General Conditions" on page 72.

How long will coverage last? The 5-year warranty is valid for all IKEA appliances, except for LAGAN appliances, that have a 1-year warranty. See also "General Conditions" on page 72.

Which appliances are covered under this warranty? This warranty is valid for five (5) years from the original date of purchase of the IKEA appliance from IKEA, when this major appliance is operated and maintained according to instructions for use attached to or furnished with the product. (LAGAN appliances have a one (1) year warranty from the original date of purchase from IKEA.) This warranty is valid only in the United States or Canada and applies only when the major appliance is used in the country in which it was purchased. Outside the 50 United States and Canada, this warranty does not apply. Proof of purchase is required to obtain service under this warranty. If service work is carried out under warranty, this will not extend the warranty period for the appliance, or for the new parts.

Appliances not covered under this warranty.

All appliances purchased from IKEA before August 1, 2009.

Who will execute the service?

This warranty is provided by Whirlpool Corporation or Whirlpool Canada LP (hereafter "Whirlpool"). Service must be provided by a Whirlpool designated service company.

UTBY

UTBY shelving unit has adjustable legs so that it stands steady on uneven surfaces. Stainless steel.

Do you need a larger work surface with a practical storage place? Then, extend your kitchen with an UTBY shelving unit and a matching countertop. The open shelf gives an airy impression - and allows you to reach things from two sides.

L47¼×D23¾×H35¾"
Shelving unit **\$229**

If you place UTBY shelving unit between two AKURUM base cabinets your kitchen will be airier and your pots easier to reach. With the help of the adjustable legs, you can set the shelving unit at the same height as the base cabinets so you have an even surface to work on.

W47¼×D23¾×H35¾"
Shelving unit **\$229**

Place UTBY shelving unit in the middle of the kitchen and you will have a kitchen island with an extra work surface and a practical storage place that's easy to reach from every direction. Complete with a table top from the same series or with a matching made-to-measure countertop.

L47¼×D23¾×H35¾"
Kitchen island with UTBY brown-black table top **\$279**

AVSIKT roll front cabinets

The roll-front will stay open at whatever height you choose. Just pull down, or push up and release. Height adjustable shelf/shelves included. Gray foil and roll-front in aluminum.

Get more storage space where you need it most by mounting AVSIKT on CAPITA legs. These roll-front cabinets are also extremely useful in other rooms at home, not least the study or home office.

17¾×12¼×47¾" **\$189**
23¾×12¼×47¾" **\$249**

Stand the roll-front cabinet on the countertop to use the full height of the kitchen wall for storage. If you need a larger working surface, you can choose wall cabinets instead. Store the things you don't want to be visible but still need to have easily accessible in the cabinets. You can also place the lower cabinet on the unused space above the wall cabinet.
